

**Leading the journey towards a
shared and sustainable energy
future**

Oct. 19, 2021

Our Energy Network

Oil and Liquids Pipelines

- 4,900 km (3,000 miles) liquids pipeline system.
- Transports ~20% of the western Canadian oil to the U.S. Midwest and Gulf Coast.
- Safely delivered over 3.1 billion barrels since 2010.

Natural Gas Pipelines

- 94,000 km (58,000 miles) network of natural gas pipelines.
- 653 Bcf of natural gas storage.
- Provides 25% of the natural gas that North America uses every day.

Power Generation

- Investments in 7 power generation facilities with a combined generating capacity of 4,200 megawatts – enough to power more than 4 million homes.
- 75% of this capacity is emission-less.
